

Tires & Mounting

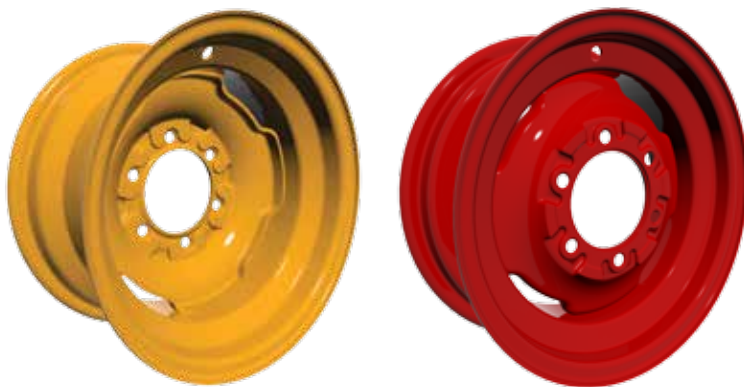

We source our tires from quality leaders in the field and can mount them on any CTD manufactured wheel.

The CTD Group is committed to providing the most seamless supply chain in the industry. We are proud to provide you with a solution that puts your equipment back in the field faster, saving you valuable production time and money.

Mounting Services

Our products are designed to work seamlessly together. We can mount our tires on any wheel that we manufacture.

Hub Assemblies

BKT Tires

BKT is one of the world's leading manufacturers of OFF-HIGHWAY tires. BKT has the widest product range with more than 2000 SKU's (Stock Keeping Units) and is a "One Stop Shop" for all off-highway tire solutions.

With the help of persistent & intensive market research coupled with ever expanding production capabilities, **BKT has made its mark in specialty segments such as Agriculture, Construction, Industrial, Earthmover, Port, ATV (All Terrain Vehicle), and Turf Care applications in both cross ply & radial construction.**

BKT is continuously expanding its production base. With three state of the art tire manufacturing plants and one *In-house Hi-tech Mould-manufacturing facility* at different locations in India, **BKT** is well equipped to feed the ever-growing demand of its worldwide customers.
